Report

On

One Day Field Visit to "ISRO Space Exhibition"

B. Sc. (Information Technology)

A one-day industrial visit was organized for the B. Sc. IT students on Saturday, 25th February 2023 at Veermata Jeebai Institute of Technology (VJTI). The objective of the visit was to provide a real time practical exposure to the students about technical and operational details the Working Satellite Models and the latest developments in Space Research by Indian Space Research Organization (ISRO).

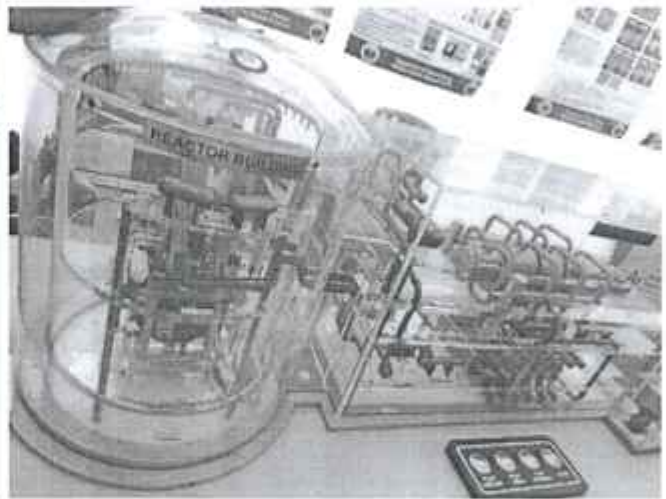

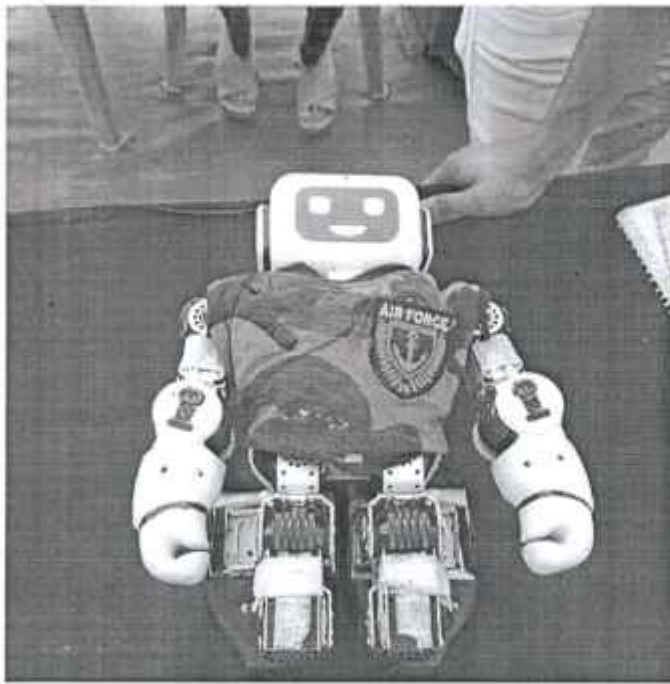

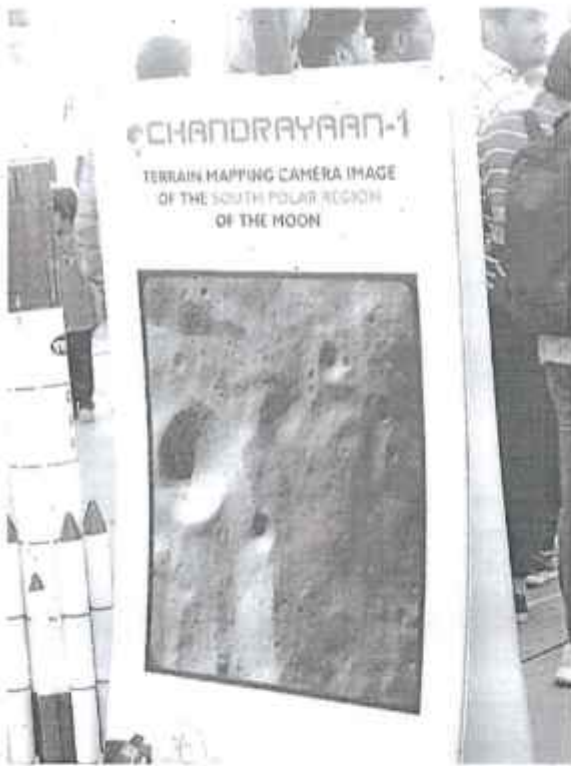

Indian Space Research Organisation (ISRO) is the space agency of India. The organisation is involved in science, engineering and technology to harvest the benefits of outer space for India and the mankind. ISRO is a major constituent of the Department of Space (DOS), Government of India. The department executes the Indian Space Programme primarily through various Centres or units within ISRO. Students of B. Sc. IT participated in the Exhibition. They observed the working model of satellite, Sensors used in space research, Career Opportunities with ISRO etc.

This was only possible because of consistent support by Principal Prof. (Dr) Shaukat Ali, who are always ready to provide every possible support, guidance and mentoring at every step.
