A REPORT ON

BMS Department Visit to Water Filtration Plant

Date: 01st October 2022

Participants: 25 Students of BMS Department

On October 1st, 2022, the Bachelor of Management Studies (BMS) department organized a visit to a Water Filtration Plant, providing students with a firsthand experience of environmental management practices. Under the guidance of Prof. Sadaf Shaikh, Coordinator of BMS, 25 students embarked on this educational excursion.

Purpose of the Visit: The primary aim of the visit was to acquaint students with the operational procedures of a water filtration plant, emphasizing the significance of water treatment and sustainability in contemporary society. The visit sought to augment classroom learning with practical exposure, fostering a deeper understanding of environmental issues and management strategies.

Activities and Experiences:

Upon arrival at the water filtration plant, students were warmly received by the plant staff, who conducted guided tours elucidating the various stages of water treatment. Students observed the intricate processes involved in purifying water, including filtration techniques, chemical treatments, and quality control measures.

Interactive sessions were held, allowing students to engage with plant technicians and inquire about the challenges and innovations in water treatment. Prof. Sadaf Shaikh facilitated discussions, encouraging students to reflect on the environmental implications of water management practices and explore potential solutions.

The feedback from students following the visit was overwhelmingly positive. They expressed appreciation for the opportunity to witness firsthand the practical applications of environmental management concepts. Many students highlighted the interactive nature of the visit, citing it as instrumental in deepening their understanding of water treatment processes and sustainability principles.

Moreover, students commended Prof. Sadaf Shaikh for her guidance and support throughout the visit, noting her expertise and enthusiasm in facilitating meaningful discussions. Several students

expressed a newfound interest in pursuing careers related to environmental management and sustainability, inspired by the insights gained during the visit.

The BMS department's visit to the Water Filtration Plant on October 1st, 2022, proved to be an enriching and enlightening experience for students. The positive feedback received underscores the significance of practical exposure in augmenting academic learning and fostering a holistic understanding of environmental issues. Prof. Sadaf Shaikh's guidance and the enthusiastic participation of students contributed to the success of the visit, exemplifying the department's commitment to nurturing well-rounded individuals equipped to address contemporary challenges.
