Brief Summary of the activity conducted:

Basic objective:

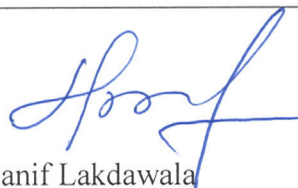

Language lab software is a part of our language immersion programs, where students are immersed in an environment created by software where the target language is spoken, and student can learn by actually practising in neutral environment. This software is highly effective in improving language skills of student.

Methodology: it's based on self learning concept on the principles of gaming. The student gradually moves from one level to another level.

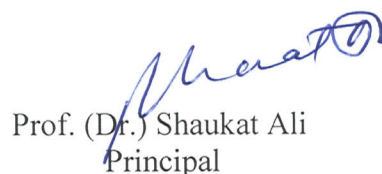

The 30 hours certificate course was spread across 10 sessions of three hours each. The first batch started on 11th August Sept 2022 and concluded on 10th Feb 2023.

BAMMC & BMS students were introduced to the basic concepts of LANGUAGE SOFTWARE by the resource person Prof Haya Shaikh. Then students were given the live demonstration for one full session. The students were given the individual headphone to learn language through the software. Our resource person was available for the guidance throughout the session

Program output: Students were enthusiastic to learn language in the safe environment. Our resource person reported that see saw, during the live demonstration, Improvement in the communication skills of many students.. The language lab made students very eager to learn English Language.
