GREEN AUDIT COMMITTEE REPORT

The Green Audit Committee has undertaken the identification and geo-tagging of trees on the college campus on 11th July 2022

This task was undertaken in a bid to preserve the trees that were planted on the campus over the years and also so that our students are able to be acquainted with the common and botanical names.

In all 25 trees have been identified and geo-tagged. This was done with the help from Mr Sarfaraz Khan, a professional botanist and taxonomist working in association with the Garden Department of Brihanmumbai Municipal Corporation.

Staff and students have quite often undertaken Plantation Drives and it is extremely important that the survival of trees be ensured through adoption of effective measures.

Fortunately, we have a campus - something that most educational institutions in Mumbai lack due to paucity of space. We can also boast of having a small green cover that includes trees, shrubs and flowering plants. We can therefore, also claim that at an institutional level we are contributing to reducing our Carbon Footprint and subsequently 'walking the talk' of environmental protection.
