## **Akbar Peerbhoy College of Commerce and Economics**

*(NAAC Accredited College)*

MS Ali Road, Two Tank Grant(E), Mumbai - 08

### Distinct practice 2020-21

Being a pandemic year it was a great challenge for the college like us to conduct online teaching as well as online examination. Because most of our students were not having smart phones and to recharge data on daily basis was a big difficulty due to their socio-economic conditions. Most of students were not having Gmail account too. Therefore the college conducted the PTA meeting to create a awareness among the parents regarding new requirement's as well as support to be provided to the students at their homes. To train the students for online classes and exams, the IQAC along with IT cell and examination committee conducted orientation cum awareness program. In that they were trained how to fill up all required information as well as asked them to appeared for mock test to avoid last minutes technical glitches. They were informed about various applications to be installed for attending online classes as well as other activities. The special help desk with helpline numbers was setup to help the students for examination, admission, fees payment etc. Vision & Mission of our institution emphasizes on creating citizens who will contribute to the growth of nation. Another important performance of the institution very distinctive to its priority is its identification with social needs. Institution, Alumni and its students were in for front for providing various services to all those covid effected communities especially in around the college campus during the covid imposed lockdown. Students past & present & staff raised funds to purchase food packet kits to all those families who were badly hit by the covid lockdown and its impact on various small time businessmen. Institution takes pride in its Alumni, students & staff who were providing help to all those needy at the time when it was badly needed, and helped the college discharge its Institutional Social Responsibility.
